Integrated 7<sup>th</sup> Grade Science – Chapter Review

Mrs. Zeblisky

## Chapter #13 Mixtures, Solubility & Acid/Base Solutions Review

| Question:  | Answer: |
|--|---------|
| 1. Using your notes, define substance.             | 1.      |
| 2. Using your notes, define mixture.               | 2.      |
| 3. Using your notes, define Heterogeneous mixture. | 3.      |
| 4. Using your notes, define Homogeneous mixture.   | 4.      |
| 5. Using your notes, define solution.              | 5.      |
| 6. Using your notes, define compound.              | 6.      |
| 7. Using your notes, define solvent.               | 7.      |
| 8. Using your notes, define solute.                | 8.      |
| 9. Using your notes, define polar molecule.        | 9.      |
| 10. Using your notes, define concentration.        | 10.     |
| 11. Using your notes, define solubility.           | 11.     |
| 12. Using your notes, define saturated solution.   | 12.     |
| 13. Using your notes, define unsaturated solution. | 13.     |

|   |     |
|---|-----|
| 14. Define analogous.                       | 14. |
| 15. Using your notes, define acid.          | 15. |
| 16. Using your notes, define hydronium ion. | 16. |
| 17. Using your notes, define base.          | 17. |
| 18. Using your notes, define pH.            | 18. |
| 19. Using your notes define indicator.      | 19. |
